

MAKE HEALTHY WATER FROM AIR

H2O MACHINE - ATMOSPHERIC WATER GENERATOR (AWG)

Creating your own water from air have never been so simple. In under 15 minutes you can setup the H2O Machine and start making healthy water.

The H2O Machine is extremely cost effective and can Generate up to 18 gallons of water per day. Stop paying for unhealthy bottled water and start making your own water today!

The H2O Machine provides high quality water for your daily needs and tasks. With a simple plug and play installation, you can start generating water in minutes that is cleaner than water in municipal areas.

The H2O Machine uses a proprietary 5-stage filtration system ensuring the water is both safe and healthy to drink. Average pH dispensed is between 7 and 8.5 and the filters are changed annually.

HIGHLIGHTS

Reduce Waste
Protect the environment and reduce plastic use

Premium Drinking Water
Healthy, clean drinkable water

Filtering the water
Unique 5-stage antibacterial filtration

Low Noise
Runs quietly and efficiently

IoT Feature
Control and monitor the machine from an app

Iron Clad Warranty
5-year warranty covers everything (10-years on the compressor)

H2O MACHINE APP

Use a smart phone and monitor the advanced control system on your unit. Check humidity levels, filter life and more from your phone. Optimize water production and get filter replacement alerts without having to be right next to the unit.

SPECIFICATIONS

Water Generation Capacity	Up to 18 Gallons per day
Dimensions	19" x 20" x 23" (Storage) & 21" x 21" x 37" (Generator)
Machine Weight	145 lbs combined
Power Usage	115V/60Hz Wattage: 1700W Max. 15 Amps.
Solar Compatible	Yes
Air Filtration	Thick Pre-Filter Media
Water Filterting	5-Stage Filtration (Replaced Annually)- Bacteria Down to 1ppm
